### ABOUT KA-COMM., INC.

Ka-Comm., Inc. is a leader in critical communications systems in the Midwest. We have been servicing the communications needs of the people of Kansas since 1960. Our office facilities are located in Salina, Manhattan, Emporia, and Olathe, Kansas. We sell and service a wide range of products that serve the public safety market.

We have extensive knowledge in conventional, voting, and trunk communication systems that support both high level voice encryption and mobile data. These systems can operate in the VHF, UHF, 700 and 800 MHz frequency bands.

Ka-Comm., Inc. also leases equipment to operate on our numerous conventional and trunk systems around the State of Kansas. These systems operate in the UHF and 800 MHz frequency band.
